

Inbound VoIP Services

Inbound Numbers to SIP or IAX2 (Asterisk)

All of our Telephone Numbers can be used as Inbound VoIP Numbers, this allows Callers from any standard Landline or Mobile phone to contact you wherever you are.

Our system can terminate Calls to SIP, IAX2 and H.323 destinations, so if you currently use an IP PBX service such as an Asterisk Server or any other SIP device, we can deliver Calls to you.

Having an Inbound VoIP number is ideal for people who Live or Travel abroad as friends and family can Call you without having to pay International Call Charges.

No Inbound Call Charges on Most Numbers

If you are using one of our UK Town Numbers, Non Geographic Numbers or Personal Numbers to Route Calls to a SIP, IAX2 or H.323 destination, there are no Call Charges for you to pay, no matter where you are in the World.

If you are using a Freephone Number for a VoIP Service then the Inbound Call Charge to you will be 2.5 Pence per Minute.

Receive Simultaneous Calls

All of our Numbers are able to receive Simultaneous Calls, the amount of Simultaneous Calls you are able to receive depends on the equipment you are using. Most of our clients are able to receive more than 5 Simultaneous Calls at any time.

Numbers Available

- Full Range of UK Town Numbers - UK Geographic Numbers starting with 01 and 02
- Non Geographic Numbers - Numbers starting with 0845, 0844, 0870 and 0871
- Freephone Numbers - 0800 and 0808 Numbers
- Personal Numbers starting with 070

Once-Off Connection Charge - No Line Rental or Service Charge

There is just a Once-Off Connection Charge for our Numbers, this price is set according to how 'Memorable' a Number is. The Connection Charges are the same across all of our Number Ranges.

There is no Line Rental to pay, and no Monthly or Annual Service Charge, Once you have paid the Connection Charge for a Number, it is yours for life.
